# Wedding Day Host & DJ

Dave can host your full day, from your ceremony to last orders!

He can provide a subtle and discreet sound system and all the music for your wedding ceremony. Played at the right levels and at the right time, leaving no awkward silences and encapsulating the atmosphere of the most important part of your day...

As you walk back up the aisle, Dave will make sure your music flows seamlessly throughout the venue, accompanying your guests into the drinks reception.

Dave will liaise with the venue, your photographer and other suppliers to coordinate the day, allowing you to enjoy your wedding knowing that the schedule is in safe hands.

Dave will then invite your guests to be seated where he will then introduce you both and welcome you to the room as you take your seats for your wedding breakfast.

Dave will host your speeches with the use of radio mics, as well as providing carefully selected music for you while you dine.

From there, more music will accompany your guests as we move into the evening drinks reception and welcome your evening guests...

The advantage of having Dave with you for the full day gives you the opportunity to relinquish any worries or stress to him, and allow you to completely relax and enjoy the biggest day of your lives.
